

The Swim Training Platform was designed to provide a sense of security for young swimmers by raising the pool floor up. By allowing young children to stand and see the pool floor, their fear of deep water can be overcome allowing them to concentrate on the task of learning to swim.

New, stronger polypropylene deck allows for easier draining and also has built in UV inhibitors to protect it from ultraviolet rays.

Multiple units can be joined to create larger platforms for larger classes. And new Mesh Safety Skirt can be used to prevent youngsters from swimming under platform.

Features:

- 300 Pound (136 kg) weight capacity
- Durable, lightweight PVC construction
- Adjustable height legs from 16" to 21" (41 to 53cm) in 2.5" increments (6cm)
- Removable hand rails to allow free movement to adjoining platforms
- Weighted legs prevent unit from floating
- Non-skid rubber feet to prevent platform from moving on the pool floor

Options:

- *Extendable legs for 18" to 24" height - Item #F-220EL*
- *Mesh Safety Skirt - Item #F-204MSS*
