Purchase and enjoy your Spas N Stuff hot tub with confidence.

56 Frame Pumps = Quiet and Energy Efficient

Your Spas N Stuff hot tub is equipped with Balboa“ 5.0 BHP, 56 Frame pumps. (some models have one pump, some have two).

56 Frame pumps produce more power and use less energy. Their increased efficiency allows them to operate cooler and quieter and last much longer than a 48 frame pump.

56 Frame pumps provide plenty of power for your soothing massage therapy while still offering quiet operation and energy efficiency.

Balboa Electronic Spa Controls with Titanium Heaters and M7®Technology

We use a state of the art electronic control system to ensure safe and reliable operation of your spa.

The Balboa control system comes with a user friendly, digital control pad with bright LED display . The electronic control pad allows control to all spa functions with the touch of a button.

The Balboa control system also includes a 5500 watt, Titanium heater to keep your water warm for many years to come!
