

Columbia Spas

Keystone

The Keystone is a throw back to the original round hot tubs, but there is nothing retro about the performance of this hot tub. With high efficiency electronics and designer craftsmanship, we do not just build it like they used to, we build it better. The Keystone is visually pleasing as well as blissfully relaxing. The varied hydrotherapy jet configurations offer many relaxing positions. The elevated seat works well as a cool down seat or just another place to relax. Whether you want to go retro or are a new to spas, rest assured that you will enjoy unwinding in this spa.
